

## STRESS FREE DAY!

You say, "Why should I pay someone to bathe and brush my dog when I can do it myself?"  
The answer: The BIG 4! TIME, TROUBLE, MESS, EXPENSE which equates "STRESS!"

**Expense:** Dog brushes, canine shampoo, conditioner, nail clippers, handheld tub sprayer. **Trouble & Time:** Coax the dog into a bath, brush him first, then wrestle him to the tub, wash and dry him, brush again, and trim his toenails. Toenails will not wear down on their own unless a dog is running on pavement daily. If you can hear the dog's nails "click" on the floor, the nails need trimmed. If you have a heavily coated dog extreme matting and shedding can be greatly diminished with regularly grooming.  
**Mess:** Now, clean the tub, wash towels, mop the floor, and take a shower to get all of the dirt and dog hair off yourself.

WHEW! Would it not be less stressful to drop the dog off at the groomer's? Taking the dog to Ms C's for grooming allows you time to run errands, go fishing, or complete other chores, eliminating some of your stress. Regular grooming allows your pet to feel happy, healthy and beautiful.

Why not provide your dog a "day at the spa", by including daycare the day of his grooming? Do you have a big project due at work, or do you need a "day out"? Is your dog going to be home alone from 7:00 AM to early evening? A bored dog plus an empty house could spell disaster at the house, why not set a day for grooming and day care together? Your dog deserved to be pampered, and you deserve less stress in your life.
